REMARKS

The Applicants respectfully request entry of the foregoing amendments to correct inconsistencies in dependent claims 4, 5, 22-26 and 37-42. The foregoing amendments also correct grammatical errors introduced in dependent claims 37, 38 and 41 by the Examiner's Amendment, which the Applicants previously accepted. The changes made by the Examiner's Amendment (as shown in the Examiner's Amendment that accompanied the Notice of Allowance) have been incorporated into the claims in the present Amendment After Allowance and are not shown in marked up format.

The foregoing amendments should not require additional search or examination. Consideration of the amendments should not require a substantial amount of additional work on the part of the Examiner. The amendments do not affect the patentability of the claims. The amendments were not presented earlier because the Applicants just noticed the inconsistencies/errors upon review of the allowed claims.

Respectfully submitted,
